

Terms of Use for the prototype version of SoliDecision

March 9th, 2020

The user has to agree on the following points for the use of the prototype version of SoliDecision[1]. Please send the scanned PDF of the signed document to solidecision@pse.t.u-tokyo.ac.jp. The application file will be available upon the reception.

1. The user must not use the prototype version of “SoliDecision” for any commercial purposes.
2. The user can use (incl. copy) the application file within the organization of the signer.
3. The user is prohibited from unauthorized use of the application, e.g., copy beyond the signer’s organization, editing, or reverse-engineering.
4. The user needs to install MATLAB Runtime (R2019a, Version 9.6) from the following link.
<https://www.mathworks.com/products/compiler/matlab-runtime.html>
5. In the prototype version, the user can only change the values of demand and the price of the API. Many other functions are limited, e.g., data access and change, process alternative generation, and import/export of the data and results. These functions will be available in the full license version (under development now).
6. Please contact solidecision@pse.t.u-tokyo.ac.jp, in case of interest on the full license version. Feedback for further improvement is also appreciated. In the e-mail, please include the following information: country, company/institution, and email address.

I agree with the above terms.

Company/Institution: _____

Department: _____

Name: _____

Place: _____ Date: _____

Signature: _____
